OBJECTS AND PURPOSES.

Promotion of friendly relations among the dealers.

Protection of members from unfair treatment by the trade, the transportation Companies and the Public.

Improvement of methods and correction of abuses at local and terminal markets.

Arbitration of differences as between buyers and sellers.

Publication and dissemination of crop reports and any other matters of interest to the members.

Exercise of its influence to promote reforms for the public good.

A properly conducted Grain Dealers' Association is an organization for the public good.

Bad methods and abuses necessitate wide margins.

Uniform methods and the absence of abuses make narrow margins possible and profitable.

DIPLOMACY.

RECIPROCITY.

ARBITRATION.

To Bidders and Receivers.

We beg to place this directory of grain dealers in your hands for a practical business purpose. The dealers named herein include all those who operate proper facilities located upon the railway track and who keep an open market at all times for the benefit of the farmers and public except those who refuse to arbitrate differences with bidders and receivers.

We include all stations in Iowa except those located on the Chicago, Burlington & Quincy R'y, that territory being covered by the Southeastern and the Southwestern Grain Dealers Associations.

This list has been accurately checked up during the month of May and is practically correct.

If you will give attention to the regular monthly bulletin issued from this office and make the changes in the directory as shown by the bulletins you will always have a corrected list.

Please bear in mind that we give this matter careful attention.

We are glad to supply those bidders and receivers who are friendly to the regular grain dealers with the directory and bulletins, also any further favors that may be possible for us to grant as an Association.

Appreciating your favorable disposition, I am,

Yours truly,

GEO. A. WELLS, Secretary.

To Grain Dealers.

This directory is published for the purpose of placing in the hands of receivers and bidders a list of dealers who are regularly established in business.

Please examine the names shown at your station and if not correct notify me at once so that I may give notice of corrections in my regular bulletins to receivers and bidders.

If any changes occur at any time it will be for your interest to notify me and thus keep the list of regular dealers correct.

Please give me your assistance in this matter at all times.

Yours truly,

GEO. A. WELLS, Secretary.

COMMISSION MERCHANTS

714-715 ROYAL INSURANCE BUILDING.

Chicago 6/15/03.

Dear Sir--

When consigning grain to the Chicago market, remember the undersigned stands for strictly first class service.

Cars consigned to us will have our personal attention, respecting grade and price, and if we may be permitted to toot our own horn, we can get as near top value for cars sent us as any of our worthy competitors; so don't forget it when making out B/L.

Yours truly,

W. A. Fraser Co.

ARBITRATION RULES.

Adopted by the Grain Dealers National Association at its annual meeting held at Des Moines, Ia., October 2 and 3, 1901. Also adopted by the Iowa Grain Dealers Association at its annual meeting held at Des Moines, Ia., April 24, 1902.

1st.—The President shall appoint, subject to approval by the Governing Board, a committee of three on arbitration, whose duties shall be to hear and decide cases of disagreement submitted to them, if within the jurisdiction of the committee as hereinafter defined and in which the question in dispute refers to the grain business or matters pertaining thereto, and does not involve any question of the policy of the Association.

2nd.—Such committee shall have authority to hear and decide all questions referred to it; properly coming under its jurisdiction, and its decision when made shall be final except the right of appeal to committee on arbitration of the National Association.

3rd.—Any member of this Association who shall feel aggrieved by the act of another member, or by the act of a person outside of the Association, or any person not a member of this Association who shall feel aggrieved by the act of a member and desires the case to be arbitrated by the committee, may state his grievance in substance in writing to the Secretary with his request for arbitration of it, also stating whether or not there is pending any action in court, on the questions to be submitted.

4th.—When the Secretary receives a statement in writing of such grievance and he considers it a proper case to refer to the committee on arbitration, and no action has been begun thereon in court, he shall within ten days notify the opposite party to the case, who shall within ten days thereafter advise the Secretary in writing whether or not he is willing to submit the case to the committee on arbitration for its decision, and if in the affirmative he shall at the same time furnish the Secretary in writing a statement of the material facts in the case so far as he knows them. The Secretary shall then notify the applicant of such acceptance, who shall within three days thereafter furnish the Secretary in writing with the material facts in the case so far as he knows them. Each party to the case shall verify under oath all evidence he submits in writing and each party to the case shall, before it is submitted to the committee, agree in writing to submit the case to the committee on arbitration, that no action is pending thereon in court, that he will abide by its decision excepting only the right of appeal to the committee on arbitration of the National Association, that he will release all members of the committee from any responsibility for errors in judgment in any respect whatsoever, or for any damage or any loss suffered by reason of their acts, and deposit with the Secretary the sum of \$5.00 if a member, or \$10.00 if not a member, to cover the expense of the arbitration. It being understood, however, that if the decision of the committee shall establish the entire claim made by either party his deposit shall be refunded to him by the Secretary. Any case on which an action is pending in court, shall not be submitted to the committee.

5th.—When all the requirements of section four have been complied with, the Secretary shall refer the matter to the committee on arbitration for their decisions which committee shall at their

first meeting thereafter decide the case and render their findings in writing to the Secretary, who shall at once notify the interested parties of such decision. It shall be the duty of the committee to tax the costs in each case in such proportion as they deem just and equitable, and their report of the case in writing to the Secretary shall include a statement of the amount of costs each party is to pay. The parties to the case shall comply with the decision of the committee within thirty days after receiving notice of it from the Secretary, unless an appeal is taken to the committee on arbitration of the National Association, and the decision of that committee must be complied with not later than ten days after notice thereof.

6th.—It shall be the duty of the committee on arbitration to hear and determine all cases submitted to it by the Secretary within its jurisdiction and to render a just and equitable verdict thereon according to the evidence and to the best of their ability. The committee shall have jurisdiction in cases arising in territory covered by its organization, between its members, between its members and a non-member, by consent of the member, and between its members and members of the National. The members of the committee are not to be held responsible for errors of judgment in any respect whatever nor for any damage done nor any loss suffered by reason of their acts.

7th.—The members of the committee before entering upon the duties thereof shall each subscribe to the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully and fairly hear and examine all matters in controversy that may be submitted to this committee, and that I will make a just and equitable award or finding upon the same according to the evidence to the best of my understanding, so help me God."

8th.—If the parties to a case submitted for arbitration desire to present the matter to the committee in person or by attorney, they may do so by paying whatever amount, in addition to the amount provided in section four to be paid, shall be necessary to cover the additional expense of the committee, if any, of such personal hearing. The amount of the additional cost to be determined by the committee. All evidence submitted to the committee in person shall be given under oath when so required by the committee. Only members in good standing of the national or affiliated association may act as an attorney before the committee.

9th.—When a case is referred to the committee on arbitration they shall fix a time for its hearing and notify the Secretary of the date so fixed, which date so fixed shall be sufficient time in advance to permit the Secretary to give the parties five days' notice of the date and place of trial. The parties shall present all written evidence to the Secretary on or before the date fixed for hearing and neither party shall postpone the hearing of the case longer than ten days

after it has been submitted unless good cause can be shown therefor, satisfactory to the committee.

10th.—Notice herein provided to be given by the Secretary shall be deemed completed service when such notice is mailed to the parties' last known address, but the notice of date fixed for hearing shall be by registered letter.

11th.—The members of the committee on arbitration shall receive for their services \$3.00 per diem for the time used in considering and deciding the cases submitted to them, also the amount of their actual traveling expenses and hotel bills.

12th.—The money received by the Secretary to defray the expenses of arbitration shall be by him placed with the funds of the Association and the expenses therefor paid by him out of the general fund, but he shall keep a separate account of such receipts and expenditures.

13th.—Neglect or refusal to submit a case in controversy to the committee on arbitration, if so requested, when the opposite party is a member of the Association, any other affiliated Association or the National Association, or to comply with the award of the committee shall be deemed unbusinesslike conduct and the penalty therefor may be a fine, suspension or expulsion as the Governing Board may decide.

14th.—In case either party desires to appeal from the decision of this committee to the committee on arbitration of the National Association he shall so notify the Secretary of this Association and pay him the amounts specified in the National ar-

bitration rules within five days after the notice of the decision of this committee. Failure to comply with the requirements of this section within the time specified shall forfeit the right of appeal.

15th.—When from absence or disqualification of regular members, the committee on arbitration, or quorum thereof, cannot be formed, the President shall be allowed to fill vacancies with any member or members of this Association willing to serve. A majority award or finding of any such committee shall be binding, and any award or finding of the committee thus formed shall be made under the same rules and shall have the same effect as if made by the regular arbitration committee.

16th.—In case any person neglects or refuses to submit a question in controversy to the committee on arbitration for decision, or to comply with the award of the committee, in which either party to the dispute is a member of the Association, it shall be the duty of the Secretary to at once notify all members of the Association of such neglect or refusal, and if the case in dispute is of such character as to be of interest to receivers of grain, the Secretary shall also notify all receivers of grain who he believes would likely be affected by unbusinesslike conduct on the part of the persons so neglecting or refusing.

Resolved, That the arbitration rules, which were adopted by a majority vote of the members by mail, and the additions made thereto as stated, be and the same are hereby formally adopted as the arbitration rules of this Association.

TRADE RULES OF THE ARBITRATION COMMITTEE.

As Amended Oct. 3, 1902.

On all contracts for the shipment of grain sold on track or to arrive, the rules, by-laws and regulations of the market named in the terms on which acceptance is made, shall govern in settlement. In case no rules, by-laws or regulations are regularly established, the following rules shall govern:

No. 1. Confirmation.—It shall be the duty of the purchaser to mail to the seller on the day of the purchase, a confirmation in writing, giving the number of bushels, kind of grain, railroad and point of shipment, terms, price, time given for shipment, also billing instructions in keeping with the rules of the railroad on which the shipment is to originate at time of sale, kind of cars to be loaded, and any other points the purchaser may deem worthy of mention. It shall also be the duty of the seller to confirm sales in writing on day of sale, setting forth the number of bushels sold, kind and grade of grain, railroad and point of shipment, price, time within which grain is to be shipped, terms and agreement to abide by all other conditions named in the card or wire bid. On receipt of confirmation, both parties to the contract shall carefully check all terms named therein, and in case of any differences, notice must be given at once by wire or in writing.

No. 2. Time for Shipment.—Specific number of days for time of shipment or arrival on all contracts should always be mentioned. Shipments within any number of days shall mean to include Sundays and legal holidays. On contracts maturing on Sundays or legal holidays, shipment shall be made on preceding business day. "Immediate shipment" shall mean that seller has three days in which to load and bill grain, including Sundays and legal holidays. "Quick shipment" shall mean within 5 days, with the same specifications as above. "Prompt shipment" shall mean within ten days, with the same specifications as above. Where no time is specified it shall be understood to mean ten days shipment. On failure to furnish billing instructions as above specified, the seller may, on reasonable notice to the buyer, have the right to sell out the grain at best advantage for account the buyer, and the latter shall be responsible for all loss incurred. Time for shipment within the limits named in the contract shall be at the seller's option unless otherwise specified.

No. 3. Billing Instructions.—In case grain is sold for "immediate" or "quick shipment," purchaser shall wire billing instructions unless same shall be understood or given in mail bid or embodied in wire bid. In case sales are made for "prompt" or any specific number of days other than above indicated, mail billing instructions as provided in Paragraph 1, will suffice. Billing directions on grain sold may be changed, where such change does not prejudice the interest of seller, or involve additional risks.

No. 4. Shipment.—Should the seller find where his contract provides a specific time for shipment, that he will not be able to fill the sale within the time specified, it shall then be his duty to advise the purchaser by mail, wire, or 'phone, of the probable deficit, at which time the purchaser may elect to cancel, extend time of shipment, at either the original or agreed price, or

advise seller that he will be obliged to buy in said deficit in the market for which the grain is sold to the best advantage for him—the seller's account—and render a statement accordingly; and on contracts providing a specific time for arrival, the buyer may elect to cancel such contract or any balance that may still be due; or it shall be his duty to cover the contract or any deficit on same, basing the deficits on shipper's weights or estimates; and wherever shipper's weights or estimates are not given, on his own fair estimate of the contents of the cars that have been applied on the contract.

No. 5. Demurrage.—The seller shall be liable for any demurrage charges accruing on grain billed to "shipper's order" occasioned by the purchaser not having B-L in hand, so that he could have given disposition of said grain.

No. 6. Samples Sales.—It shall be the duty of the seller of grain by sample to deliver grain fully up to the sample, shipment to be made according to the terms of contract. The inspection committee or some duly authorized committee of the market to which the grain was billed, shall pass upon such shipments, providing purchaser shall refuse to receive same upon contract on account of quality. Should said committee decide that grain tendered was not up to sample, it shall be the duty of seller to adjust difference satisfactorily with purchaser; in case of failure on part of seller to adjust promptly, the grain shall be subject to his order. The buyer shall then elect to cancel an equal amount, or buy in for account of the seller a like quantity on the original contract, but must give notice at once to the seller of his action. The seller must also provide for immediate payment of any drafts made against shipments that may have been refused.

No. 7. Loading.—It shall be the duty of the seller of grain on track, or to arrive, to load all cars in keeping with the rules and regulations of originating railroads, and to be liable for any charges accruing by non-observance of same.

No. 8. Terms.—The word "terms" shall mean weights and grades guaranteed by shipper in market in which grain is billed, as agreed upon at time of sale.

No. 9. Telegrams.—The sender shall prepay all telegrams unless by agreement party to which same is addressed has previously consented to pay for such messages.

No. 10. Acceptances.—Wire and 'phone acceptances to mailed track bids, must reach the office of the bidder within the limit of time specified therein. All wire bids or offers should give time limit for acceptance.

No. 11. Surplus Shipments.—All surplus shipments on track sales or sales to arrive, shall be handled according to rules of the market to which the grain was billed.

No. 12. Regular Market Terms.—By "Regular Market Terms" the trade shall understand official inspection by an official inspector of some Board of Trade or State Inspection Department, and Board of Trade or Regular Exchange or disinterested public weights shall govern.

No. 13. Interior Shipments.—No grain sold on regular market terms shall be forwarded by purchaser to interior points without the consent of the seller.

No. 14. Invoice.—It shall be the duty of the shipper of all grain to mail purchaser or consignee on day grain is loaded, an invoice of such shipment, setting forth the car initial and number, kind of grain, actual or estimated weight, price to be applied on sale, amount of draft drawn and how billed. All Bs-L attached to invoices or drafts must be in proper form, and the buyer shall not be responsible for the payment of drafts, or for delays occasioned by the forwarding of irregular or improper Bs-L by the seller.

No. 15. On all contracts for grain based on regular established grades, the tender of sulphured or so-called "purified"

grain shall not be considered valid, and in case such shipments shall be made on contracts, the seller shall forfeit his rights under the same, and the buyer may at his discretion elect to cover such open contracts or balances necessary to fill, without further notice to the seller, who shall be liable for any loss arising in such transaction.

No. 16. All complaints of violations or evasions or willful neglect to comply with the rules and regulations herein set forth on part of either the buyer or seller of property, shall be referred to the Board of Directors, and subject to such discipline as they may elect.
